**INVESTMENT RISK ATTITUDES**

	<b>FACTOR:</b>	<b>SCORE:</b>
How do I feel about fluctuations of my investment assets?	<input type="checkbox"/> I would rather invest for stability and have little fluctuation in my investments.	1
	<input type="checkbox"/> I want growth, but expect my investments to exhibit less fluctuation than the overall stock market.	3
	<input type="checkbox"/> I would expect my overall investment account to fluctuate as much as the market.	5
	<input type="checkbox"/> I want to increase potential returns and will tolerate significant fluctuations.	7
If I start with a \$100,000 investment, and I experience a decline in the next six months due to stock market fluctuation, I would:	<input type="checkbox"/> Change strategy if my investment declined to \$90,000 in 6 months (10% decline).	1
	<input type="checkbox"/> Make changes if my account fell to \$85,000 (15% decline).	3
	<input type="checkbox"/> Maintain the current strategy regardless of fluctuation.	5
	<input type="checkbox"/> Invest more if markets and my account declined by more than 10%.	7
I am willing to have a negative return in my account 1 out of every 3 years.	<input type="checkbox"/> I'm not comfortable with declines for a twelve-month calendar year	1
	<input type="checkbox"/> This would be OK, but I would not want it to happen two years in a row.	4
	<input type="checkbox"/> This would be OK, since periodic declines are part of a long-term investing strategy.	7
In the past, I have:	<input type="checkbox"/> Sold all my investments when my investment account declined 10%	1
	<input type="checkbox"/> Sold all my investments when my account declined 20%	3
	<input type="checkbox"/> Sold some investments after a 20% decline, but did not sell all my investments	5
	<input type="checkbox"/> Never sold due to changing account values	7
I historically have:	<input type="checkbox"/> Had my long-term investments in bank CD's or money market accounts	1
	<input type="checkbox"/> Held lots of interest-paying investments like bonds	3
	<input type="checkbox"/> Nearly always held my long-term investments in a mix of stocks and bonds	5
	<input type="checkbox"/> Usually had most of my investments in stocks	7
If inflation is 3%, I would be happy to:	<input type="checkbox"/> Keep up with 3% inflation while experiencing little investment fluctuation annually	1
	<input type="checkbox"/> Exceed inflation by 2% annually with 5% investment fluctuation each year	3
	<input type="checkbox"/> Exceed inflation by 4% annually with 10% investment fluctuation each year	5
	<input type="checkbox"/> Exceed inflation by 7% annually with 15% or more investment fluctuation each year	7
